

WAR WITH ENGLAND IS NOW IN SIGHT

WE MAY HAVE TO TROUNCHE
MR. J. BULL.

Report That Britain's Soldiers Are Marching Across Brazil to Venezuela Causes Great Excitement at Washington—The Monroe Doctrine Will Be Maintained.

Washington, Oct. 15.—The report that English soldiers are marching across Brazil to Venezuela created consternation in official circles today and is predicted that if England does not back down on her position she will have to fight this country which proposes to maintain the Monroe doctrine.

Buenos Ayres, Argentina, Oct. 15.—A telegram from Para, Brazil, has been received in Rio Janeiro, stating that an armed British force is marching through Brazilian territory.

The objective point of the body is that part of Venezuela claimed by the British government. The column has already crossed the Tacutu River.

Washington, Oct. 15.—The news that Great Britain has troops on the way to Venezuela will create a tremendous sensation when it shall become generally known. Officials of the state department believe Great Britain has definitely decided to refuse arbitration of the Venezuelan boundary dispute. This belief leads to an uncomfortable feeling that serious trouble is in store for us, and that Great Britain is likely to show stubborn resistance to the efforts of our government to apply the Monroe doctrine to this case.

State department officials of high rank express the belief that Sir Julian Pauncefote, the British ambassador, has returned to America with instructions to resist not only the demands of the Venezuelans, but to maintain that the United States has no proper voice in the matter beyond the exercise of its good offices. This opinion is based on an interview with Sir Julian which appeared in a New York paper a few days ago telegraphed from Canada.

Washington, Oct. 15.—Information of the formidable uprising in Korea, resulting in the disappearance and probable death of the queen, and the landing of military forces by the United States and European powers, has been received by Minister Kurino of Japan from the foreign office at Tokyo. It is quite sensational, indicating the landing of marines by Russia, the United States and probably Great Britain.

The latest dispatch to Minister Kurino states that a force of Russian marines, forty in number, has been landed. Thus far they have confined themselves to guarding the Russian legation at Seoul.

United States marines were landed from the Yorktown to the number of sixteen. It is believed also that British marines have been landed. Besides these the Japanese have a considerable force of soldiers at Seoul who have been preserving order.

The Tokyo dispatches do not state specifically what became of the queen, further than that she has disappeared and cannot be located. The officials are inclined to believe, however, that the unofficial report of the queen's death are true. The Japanese government, the dispatches further state, has acted quickly on the reports and has appointed a commission to inquire into the facts. In the meantime it is emphatically denied that the queen's death, if it has occurred, was due to the Japanese. One report is that a Japanese soshi killed the queen. This is not yet confirmed in the dispatches received here. The officials say that the soshi are an irresponsible and lawless class, and that their acts cannot be laid to the Japanese people or government.

At the Korean legation no word has been received from the disturbed capital. The officials are much exercised and do not doubt that the queen has met her death, although they are not ready to abandon hope.

Emperor is Sorry.

Strasbourg, Oct. 15.—The governor-general of Alsace-Lorraine, Prince Hohenlohe-Langenburg, has received the following telegram from Emperor William of Germany regarding the murder on Tuesday last of Heinrich Schwartz, a wealthy mill-owner of Muelhausen, who was stabbed to death by an Alsatian spinner named Andreas Meyer, who afterward committed suicide by shooting himself through the head with a revolver:

"I have just learned of the atrocious murder of Herr Schwartz, the manufacturer of Muelhausen, and I beg your highness to express sincere condolence to the unhappy widow in my name and in that of the empress. This makes one more victim of the revolutionary agitation kindled by the socialists. Would that our people aroused themselves to combat it."

Turpin Called to Turkey.

Paris, Oct. 15.—The Figaro to-day announces that Turpin, the inventor of melinite, whose recent claim that he had invented a number of deadly instruments of war caused for a time quite a sensation in military circles, has been summoned to Constantinople on behalf of the Turkish government, which, it is claimed, proposes to utilize certain of his inventions for the defense of the Bosphorus and the Dardanelles.

DURRANT TRIAL POSTPONED.

Business Men on the Jury Secure a Vacation.

San Francisco, Cal., Oct. 15.—The trial of Theodore Durrant did not go on yesterday. So many of the jurors are business men, and it being collection day, the court adjourned until to-day. It is likely that the court will take a further adjournment this morning. Attorney Deuprey, the leading counsel for the defense, is confined to his bed with rheumatism, and his associates will base this as a reason for continuance for several days. Although the court is known to be opposed to delays in this trial, it is believed, however, that he will grant the continuance. In that case, the trial will not likely be resumed before next Monday. In the meantime Theodore Durrant remains in his cell, never leaving it for the customary exercise in the corridors. It is said he is becoming exceedingly irritable. Since he finished his testimony in Judge Murphy's court the defendant has lost considerable vivacity, and instead of being careless and indifferent, he is serious and troubled.

For the first time since his arrest the medical student seemed impressed with the proper idea of his terrible position. At last it has dawned on him that he may be convicted, and, as he realizes the chain of circumstances against him, he has become much depressed.

Attorney Dickinson, for Durrant, yesterday remarked that he thought the defense would be able to put in the balance of its testimony in two days or less. Then the prosecution will put its witnesses in rebuttal. District Attorney Barnes says he will handle them rapidly, but Dickinson is preparing to cross-question witnesses at length, and on that account it need create no surprise if another week is devoted to the work of taking testimony.

A. P. A.'S AT ST. LOUIS.

Delegates Present from Every State in the Union.

St. Louis, Mo., Oct. 15.—The advisory board of the supreme council of the American Protective association, as organized at Milwaukee last year, met at Druids' hall yesterday. Supreme Councillor Faine, of Washington, D. C., in the chair. At the time there were in the room about fifty gentlemen. It was announced in a general way that they represented nearly every state and territory in the Union. During the afternoon Mayor Walbridge addressed the meeting. The main avowed object of the present meeting is to perfect a national organization in accordance with the general plan agreed upon at Milwaukee a year ago, which shall perform a like function in the forthcoming presidential campaign to that performed by state and local advisory boards in state and local elections. That is, the religious affiliations and influences which surround each of the candidates nominated for president and vice president will be rigidly investigated and a report thereon will be made to all the members of the order throughout the country to guide them on election day.

Talk of Lay Representation.

Elgin, Ill., Oct. 15.—Bishop Bowman yesterday presided over the deliberations of the tenth day of the Evangelical conference which now looks as if it would conclude its business by Thursday. Among the new measures was a call for a text-book on systematic theology, to be issued within the next four years, and to be prepared by Bishop Esher. This was referred to the committee on publishing-house interests. It was decided to place the Union Biblical institute, of Naperville, under the immediate control of the general conference. The special committee on lay representation presented the plan prepared by the commission appointed four years ago. It provides for as many lay delegates to annual conferences as there are ministers in active service and for one third lay representative in the general conference. This was discussed at length.

Herreshoffs to Build Torpedo Boats.

Washington, Oct. 15.—Secretary Herbert yesterday signed the contracts with the Herreshoffs for the building of two new torpedo boats recently awarded them after public bidding. Some delay was occasioned in the matter by the absence of the secretary from the city and a reluctance on the part of others at the department to execute the papers in his absence. The department is not concerned over reports that the Herreshoff brothers may decide to go into separate branches of shipbuilding, as the contract will be with the firm, and the government has nothing to do with the private affairs of the firm.

Vanderbilts to Wed Again.

Brooklyn, N. Y., Oct. 15.—It has become almost an accepted rumor among the members of the "400" of New York and particularly among those who compose the Meadow Brook Hunt club of Long Island, says the Eagle, that a reconciliation is probable between Mr. and Mrs. William K. Vanderbilt, and that immediately following the marriage of their daughter Consuelo with the duke of Marlborough a second ceremony will unite the parents a second time in matrimony.

Utah Democratic Convention.

Salt Lake, Utah, Oct. 15.—The democratic territorial committee met here yesterday. A vote was taken, and it was unanimously decided to issue a call to reconvene the territorial convention.

EIGHT MEN ESCAPED FROM A FIRE AT SEA

PART OF THE PARTHIA'S CREW
REACH LAND.

Mate and Seven Men at Valparaiso, Chili, But Nothing Is Known of the Others—Schooner Nellie Duff Goes Down Off Lorain, Ohio, in Lake Michigan.

Valparaiso, Chili, Oct. 15.—The second mate and seven of the crew of the American vessel Parthia which burned at sea four hundred miles off this coast has arrived here. Nothing is known of the other members of the crew.

Lorain, Ohio, Oct. 15.—The schooner Nellie Duff, hailing from Detroit and bound from Pelee island to Cleveland, loaded with gravel, sunk two miles off the Lorain harbor shortly after midnight Sunday night. These were drowned:

CAPT. PETERSON, of Pomeroy, O. JOHN HAGERMAN, seaman, of Pomeroy, O.

UNKNOWN SAILOR, hailing from Cleveland.

Fishermen brought in word early in the morning that wreckage was floating in on the beach. The spars of a boat were found above the water about two miles out. A man was found clinging to the topmast in almost a lifeless condition. He gave his name as George Wilson.

Twelve Sailors Drowned.

London, Oct. 15.—The German steamer Emma collided with the French bark Pacific off Spurn Head Monday morning and the Pacific sank in fifteen minutes. Twelve persons were drowned, including Captain Cigarro, of the Pacific, and the pilot. The Emma was badly damaged.

ANOTHER VICTORY FOR CUBANS

One Thousand Spanish Soldiers Said To Have Been Slain.

New York, Oct. 15.—Letters were received by the Cuban Junta in this city yesterday from General Carlos Roloff, and William G. Clapp, an American citizen, who went to Cuba to assist the patriots in their fight for freedom. Clapp's letter is dated October 7, in camp near Holguin. It says a battle was fought October 5, and of the 3,000 Spaniards engaged in it nearly 1,000 were killed or wounded. They were commanded by Suarez Valdes, who was wounded in the hand, and they were taken to the coast. The Cubans had 100 men killed and 100 more wounded. They captured two guns, with a great quantity of cartridges.

General Roloff's letter to Delegate Palma said that September 22 a column of Spanish soldiers made their appearance at Batia de Bijoge. They were attacked by the Cubans and compelled to retreat to a small wood. It was impossible for the Cubans to follow, as their force was made up wholly of cavalry. Six patriots were killed and thirty-seven wounded. The Spaniards lost 124 men.

On the steamship Yumuri, which arrived Sunday, was George Reno, who left here six weeks ago, saying he was going to join the revolutionary forces. When he reached Cuba he gave out that he was a newspaper correspondent, and the Spaniards shipped him back to New York.

AFRAID OF DYNAMITE.

General Campos Issues Rigid Orders Relative to Outrages.

Havana, Oct. 15.—The recent use of dynamite by the insurgents along the line of the railroads is causing the authorities grave uneasiness, and it has been considered necessary to employ special measures to suppress the practice. It will be recalled that on several occasions recently dynamite bombs have been hurled at railroad trains containing passengers and details of troops, and dynamite has also been placed upon the tracks. Considerable damage has been done in this manner, and fears are felt that greater harm may come from this practice. With a view to checking it, and of preventing further attempts, Captain General Martinez de Campos has published an order that all trees and bushes shall be cut down and all huts removed within a distance of 200 yards of the railroad track on both sides. It is further ordered that no one shall be allowed to approach the trains. Violators of these orders are to be summarily court-martialed.

A Majority for Resubmission.

Des Moines, Iowa, Oct. 15.—It is stated on good authority that the republican campaign managers have made a poll of the preferences of the candidates for the legislature, with reference to the question of resubmitting the prohibition amendment, and that it proved that a majority of them are in favor of resubmission. The legislature of two years ago passed the present mulct license law, and, in order to get votes with which to carry it, had to pass a resubmission resolution. Such a resolution must go through two successive legislatures before the question can go to the people.

SAFE IS CRACKED AND MONEY GONE

A SUCCESSFUL JOB DONE AT
MISCHICOTT, WISCONSIN.

Hardware Store Raided and \$1,000 in Cash Beside Other Valuables Were Taken—Oshkosh Fishermen Back the Men Arrested at Appleton—Sheboygan Grocery Firm Fails.

Two Rivers, Wis., Oct. 15.—[Special.]—Terrence & Oswald's hardware store at Mishicot, near here was entered by robbers last night. The safe was cracked and one thousand dollars in cash and valuable checks were taken. No clue left behind.

The Appleton Fish Fight.

Appleton, Oct. 15.—[Special.]—The drivers of the wagons loaded with fish which were illegally caught and confiscated here yesterday, were held for trial today in two hundred dollar bonds each. The fishermen of Oshkosh are defending the case and will make a hard fight. They threaten damage suits against the wardens.

Sheboygan Firm Fails.

Sheboygan, Wis., Oct. 15.—[Special.]—Henry Mertens, a grocer, was closed up on an attachment by Milwaukee firms for \$1,000. Other claims were also filed.

ASK FOR PROTECTION.

Convention of Congregational Churches Wants Action Taken.

Syracuse, N. Y., Oct. 15.—Yesterday was the last day's session of the National Council of the Congregational Churches of the United States. The committee on protection of Americans abroad submitted resolutions through Rev. B. G. Northrup, of Clinton, Conn., saying: "We deeply deplore the massacre in China of a number of missionaries of sister churches and we ask, not in any spirit of vengeance, but with a desire for protection, that when possible by diplomatic representations, and where necessary by more vigorous action, it be made clear that our government will not fail to give all due protection to its citizens, whose work abroad is an honor to our own nation and a blessing to those countries in which their labors are expended."

The first part of the afternoon was devoted to the reading of the report of the committee on marriage and divorce, presented by Rev. Doremus Scudder, of Massachusetts. The committee recommended that a committee of three be appointed to further consider the subject and that the committee name be changed to a "committee on the family." The committee on lynching, through President Strong, of Iowa, reported on that subject, asking other Christian bodies to co-operate in creating a sentiment against lynching. Nearly all of the business was completed in the afternoon, and the evening programme was given over to speech-making and to the committee on capital and labor. After the transaction of minor business, the convention adjourned.

Taylor Taken to Prison.

Pierre, S. D., Oct. 15.—Upon motion of Attorney General Crawford, and without argument upon the part of Horner and Stewart for W. W. Taylor, the Supreme court yesterday morning handed down a remittitur in the case of the defaulting state treasurer. It was handed down to the clerk of the Circuit court yesterday, and Sheriff Price started for Sioux Falls with the prisoner this morning.

She Married too Often.

Pueblo, Col., Oct. 15.—Mrs. John Sims of Kansas City, who became Mrs. James Grant at Pueblo on Oct. 7, has been arrested here charged with bigamy. She is said to have made a full confession. She married Sims at Kansas City on Sept. 23 and at once left him, presumably to go to St. Louis, but instead she came here and met James Grant and married him last Monday.

Had a Fit.

Mr. Leach, a popular and well-known young man, had a free fit in our store Saturday. We mean what we say. The shoes in our window fit Mr. Leach and he walked away with them. There is another pair there now. They are free if they fit you. Why not bring in your hoofs and try them on? Brown Bros. & Lincoln.

400 Pounds

Of Northern Dairy butter, the finest quality of dairy butter came this afternoon from the north. It is wonderfully low. Our trade has increased on this article. We find it hard to keep a supply on hand at all times. The quality is always the same, very rich and sweet, and remember its dairy. Nolan Bros. Telephone 172.

"Economic Problems" Will Be the Subject Treated—Other News Notes.

Milton, October 15—The lecture course from the State University on "Economic Problems" to be given under the auspices of Du Lac Grange will be held the evening of Nov. 26 and be held weekly Tuesday evenings, with the omission of December 24. The first three lectures to be given in the college chapel Milton and the last three in P. of H. hall, Milton Junction. Conductor Keys wrecked a flat car on the south side track at this station Friday night. Other cars were driven against it with such force as to lift the floor of the flat clear from the trucks and hoisted one end onto the roof of the car next to it. State Bank Examiner Kidd dropped in on Cashier Green of the bank of Milton last week. He made a thorough examination of that institution and expressed himself as well satisfied with its condition. E. C. Green, a representative of the Chicago Creamery Package Company, was in town Friday. Luther L. Bond M. D., of West Side, Iowa, called on some of his Milton comrades and friends Friday. Jesse Green, the "sage" man of Albion, did business here Thursday. Mrs. Charles M. Morse, of Chicago, was the guest of President Whitford Friday, and is now stopping with her father, William Hemphill. Frank Root spent Sunday in the village. He has just finished up a five weeks' trip in the northern part of the state, for the Dohmen Company, of Milwaukee. Carl Davy has the position of day operator at Genesee, his first office.

A PORTER WOMAN IS INJURED

Tripped on a Board Dislocating Her Hip—Little Pleading Done.

Porter, Oct. 15—Mrs. Kittie Collins met with quite a serious accident recently. While walking in the yard she stepped on a board that flew up and she fell heavily to the ground, dislocating her hip. She is now doing nicely. Farmers are husking corn although corn in shocks is almost too dry to handle. Scarcely any plowing has been done, as the soil is in such a dry condition. Some of our people are hunting these days. Mr. Cleary, of Sun Prairie, was a pleasant visitor Sunday. Mr. and Mrs. James Crowley, of Janesville, were here a few days the first of the week. Seventy-three couples attended the party given by the Ladies' T. A. society in Fulton. The next entertainment they will give will be a temperance lecture in St. Michael's church by some noted speaker.

EVANSVILLE FOOT BALL ACCIDENT

William Austin, The Man Who Was Hurt Doing Nicely—Final Ball Game.

Evansville, Oct. 15—William Austin, who had his leg severely injured at the foot ball game last Saturday is feeling much better. Hereafter Mr. Austin will get out of the way of the man with the pig skin as he would from a runaway team. Evansville will play as many "last games" of base ball, as the average opera singer makes farewell tours. They played a last game with Jefferson, another with Dubuque and now have made a date with the Dubuques for another final game, which will be played on the Evansville grounds next Saturday, October 19. The Evansville people resolved to win this game or perish, so that a fight to finish game may be expected.

ENDEAVORS WORK FOR A BETTER CITY

JANESVILLE UNION DISCUSS PLANS FOR THE FUTURE.

Formation of a Choral Society and the Spreading of Gospel Teachings Among Jail Prisoners and Poor House Inmates Resolved Upon—The La Crosse Convention.

The executive committee of the local Christian Endeavor union met last evening with O. S. Cleland, president of the union, in the chair. Miss Gertrude Cobb was appointed secretary. Committees were appointed to carry on the following lines of work.

Gospel services in county house, jail, schoolhouses and any other places desired.

To see that cards with notices of all church services in the city, be placed in depots, hotels and the public library.

To place the Golden Rule the official organ of the Christian Endeavor and the Epworth Herald of the Epworth League in the library.

To agitate the subject of forming a choral union for the purpose of bringing the young people together for the study of church music and also when a large chorus was needed for any purpose the union should stand ready to be of service.

The advisability of securing Hon. A. M. Haznell to deliver one of his Christian citizenship lectures was discussed and it was decided to wait until the committee should think the public ready for it.

Convention a Success.

Interesting facts were developed regarding the State Endeavor convention in La Crosse. The greatest interest was manifested in bible study, Junior work and Christian citizenship.

The bible classes were held from 8.30 to 9.30 a. m. and were largely attended. Mr. Merrill proved himself a practical teacher leaving his class "with a great desire for study of the Bible and a better idea of how to get at it" as one delegate expressed it.

The speakers on Junior work Miss Carrie Holbrook of St. Paul, state secretary of the Christian Endeavor in Minnesota; General Secretary John Willis Baer, Boston, and Nettie E. Harrington, Janesville. Mr. Baer spoke to the Juniors, telling them of his "cubs" at home, how they were Juniors, too. Miss Holbrook is a very bright and fluent speaker, and in a few words impressed the Christian Endeavors with their great responsibility with regard to the boys and girls all about them. Miss Harrington's talk was to the parents. She urged them to be careful of their children's food, playmates, and the books they read; to provide plenty of amusements in the home; to care more for the children than for the furniture; to choose their own language with care, and guard well their habits.

A Plea for Good Citizenship.

Hon. A. M. Haznell, of Chicago, stirred his hearers with a desire for better citizenship. He said there were 8,000,000 Christian voters in this country against 3,000,000 of questionable principles. Still people stood aside and said, "It ought not to be so, that our country is run by liquor men, but we cannot help it. You must have public sentiment or you can do nothing."

"Public sentiment," says Mr. Haznell "what are your eight million men and your estimable wives doing that public sentiment is not on the right track?"

"Forty men banded together for good citizenship went into one primary in Chicago and so astonished the liquor element, who were sure of the field without an effort to win, that before these liquor men realized it the meeting had been adjourned from the saloon to a neighboring church, good men nominated, and the whole meeting covered by good and righteous men. Why not other places do this? Yes, why not? Why should not the primaries be held in churches or halls where both men and women could attend and the business of our country be done decently and in order. It is for you young people to set the ball a rolling."

MONEY IN SKATES R. BAUM SAYS

Firm Who Kill Worthless Horses are Doing a Good Business.

There is money in the skate business this year. Not that the hardware and sporting goods houses are becoming rich, therefore, although they are getting some indirect benefit from the sale of shot gun shells and skinning knives. Reference is made to the other kind of "skates," to wit, worthless horses. So says the firm of Baum & Raub, dealers in worn out nags. Robert Baum, the manager of the concern, said that business has been picking up during the past week and seventeen equines had been put to death, by a liberal use of the shot gun, which he claims is a painless death. These animals are bought solely for their hides which are sold in Chicago and Milwaukee bringing, when the market is good, on an average of \$2.00 each. When the "firm" pays more than a dollar for a horse it keeps them guessing on the financial part of the deal, but of late a number of horses have been bought for the nominal price of 85 cents each, while others have been given them, which of course encourages the business.

"These horses," continued Mr. Baum, "are all taken to Kennedy's farm up the river, where they are all killed, skinned and buried."

WHAT AN EDITORIAL!

In the La Fayette, (Ind.) Daily Call.

The Editor of the Newspaper Tells a Strange Story.

And Vouches for Its Absolute Truth and Accuracy.

Prominence of Paper and Startling Nature of Facts

Make Article of Vast Interest to the Public.

"John J. Reitemeier," says the La Fayette, (Ind.) Daily Call., of January 18, "the well known compositor in the Call news-room, son of one of our oldest and best known German citizens, has a daughter just three years old last Saturday, who almost from her birth has been afflicted with spinal meningitis, and has just experienced a recovery which is little short of miraculous."

"Mr. and Mrs. Reitemeier were three years ago made the proud parents of twin sisters, one of whom died on the 5th of June two years ago with spinal meningitis. The latter part of the same month her surviving twin sister was attacked with the disease in a most aggravated form. The family had the constant services throughout the whole summer of some of our best physicians, three of whom in turn examined and attended the cases. The child was unable to walk, almost unable to move, and entirely helpless."

"The physicians, one and all, agreed that the case was hopeless, that nothing could be done for this child. Their opinion was that she would never be cured, and probably would soon die. From everything done for her she experienced no benefit, and the physicians, candidly stating that they could do nothing for the cure of the child, were dismissed, and beyond mild domestic treatment, rubbing with alcohol, etc., to alleviate immediate symptoms, nothing was done for her, and the sad-hearted parents only waited the summons which they felt must soon come for her final release from her afflictions."

"Thus matters went on for about a year, the little one changing, if at all, only for the worse, and steadily but surely going down. One year this month, Mr. Reitemeier informs us, attracted by the advertisement of Dr. Greene's Nervura blood and nerve remedy, in the Call, he and his wife finally concluded to try it, though with but very slender hopes of deriving any benefit. There was a decided improvement in the child's condition with the use of the first bottle, which continued during the second, and before the third bottle was all used the child was able to walk upright and apparently cured. Thereupon the use of the medicine was discontinued and has not been resumed."

"In the year which has since elapsed the child has grown to be as fat and healthy and active a little one as any parent need wish to see, and Mr. and Mrs. Reitemeier say they feel beyond a doubt that the use of Dr. Greene's blood and nerve remedy saved her life. The case is certainly a very remarkable one, and the well known and reliable character of the parties it especially prominent and significant."

This is indeed a most wonderful cure, and occurring as it did in the Daily Call's official family, the fact will have the greatest weight in influencing all who are sick or ailing to use this truly marvelous restorer of health. This grand remedy should not be classed with ordinary patent medicines as it is the discovery of a successful physician who has the largest practice in the world among nervous and chronic diseases. Dr. Greene, of 35 West 14th street, New York City. He can be consulted without charge in regard to any case, personal or by letter, by all who use the medicine.

PASTORS ARE ASKED TO VISIT ALL SOULS

REV. V. E. SOUTHWORTH OPENS HIS PULPIT.

Study of the Religions of the World Is Being Made, and the Denominations Most Active in the United States Will Soon Be Discussed.

Rev. Victor E. Southworth started out today to call on the other pastors of the city and lay before them a pressing invitation to preach in All Souls church. The Ethical Culture club of All Souls' church meets early on Sunday evenings and is studying the religions of the world. The religions of today are soon to be reached in the course and Mr. Southworth wants the strongest possible presentation of each to be made to the club. He had intended at first to rely on answers to a series of questions mailed to the authorities of each church, but concluded that all suspicion of prejudices would be done away with more surely if each denomination were left to its own adherents. Catholics or protestant all will be given a full hearing.

"In each church I find far more to agree with than to disagree with," said Mr. Southworth today, "and I believe it is the same with my people."

GO SLOW ON CHARTER CHANGES

Committee Will Look Into It a Little Further Before Voting.

The committee in whose hands the question of adopting the uniform charter as a whole was placed, met at the city clerk's office last evening to consider the matter but after some discussion it was decided to adjourn the meeting until Friday evening at 7:30 o'clock in order to give the members time to study the matter up. City Attorney McElroy giving each member a copy of the law. It is said that the committee as a whole are opposed to the adoption of the entire charter as the change would be a radical one, and the council, city clerk, mayor and in fact all city officers would have to be elected again. It also provides for a justice of the peace in each ward as well as other features that the committee can hardly approve of. The members present at the meeting were Judge John W. Sale and Alex. Richardson of the citizens committee, Mayor Baines, City Clerk McElroy and Aldermen Smith, Hedges, Burham and Inman.

CLEOSOPHIC MEETS THIS EVENING

China and Japan To Be Discussed From an Historical Aspect.

The regular meeting of the Cleosophipic club will be held with Miss May Cunningham this evening. The subject for the evening's study is "China and Japan," with papers as follows: Civilization—Miss Winifred Kent. Religions—Miss Amelia Harrington. War Between China and Japan—Dr. Metcalf.

A "question match" is also one of the special features.

Banner Day.

Saturday proved to be the banner day of the season. Our sales were larger than any day since last spring. It goes without any pushing that people are getting, have got, a stomach full of old plunder. The Orator.

The Rev. Dr. A. D. Mayo, in a recent interesting address, quoted James Walker, a former president of Harvard, as saying, "The oration will die with Mr. Robert C. Winthrop." But the oration in no sense died with Mr. Winthrop. What is more, the oration, we may be sure, will never die until human nature is fundamentally different from what it is at present. It is the fashion nowadays to sneer at eloquence. One might as well sneer at music or poetry. Walker's reference to Winthrop was fine, considered as a compliment. Taken literally, it will not hold water. It recalls an assertion made by Mr. Howells a few years ago that the stories had all been told. In fact, hasty generalizers are always with us. People are more critical than they used to be, they are more easily bored, they have less time for anything than they ever had before. Nevertheless the man with a genius for oratory, the man who has something to say and who knows how to say it—who can say it with a silver tongue—is a perennial. He will always command an audience.—Boston Commonwealth.

The Present Generation

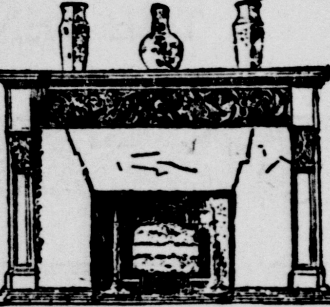

Lives at telegraphic speed—eats too fast, retires too late, does not rise betimes, smokes and (alas that we should have to say it!) chews too much tobacco. The consequences are dyspepsia, a general absence of that robust and manly vigor which characterized our ancestors, and a manifest proneness to early decay. Regular hours, a due allowance of time for meals, the disuse of excessive smoking, and altogether of chewing tobacco, in connection with a course of Hostetter's Stomach Bitters, will in nine cases out of ten efface the consequences of the abuses of the laws of health indicated above. A want of stamina, dyspepsia, nervousness and biliousness are among these consequences, and they are bodily ills to the removal of which the Bitters is specially adapted. Nor is the Bitters less fitted to overcome and prevent fever and ague, kidney and bladder troubles and rheumatic ailments. It is also a fine appetizer and promoter of convalescence.

News for the Giants.

Mrs. Cumso—Isn't it sad that so many baseball players go insane? Mr. Cumso—Going insane? Who says so? Mrs. Cumso—Well, every day I read in the papers that one of them was off his base.—N. Y. Journal.

A Charitable Spirit.

Awkward Spouse—I see our set is to have a grand charity ball. Did you ever dance for charity? Pretty Wife—Of course. Don't you remember how I used to take pity on you and dance with you when we first met?—N. Y. Weekly.

WORTHLESS ARBITRATION.

Janesville laboring men in a recent dispute gave an example of the only arbitration that can be of any value—arbitration brought about by mutual understanding. As for state boards and government commissioners they have not yet proved themselves of much value. The state of New York has a labor board similar to the Wisconsin state board of arbitration. It is empowered to decide labor controversies when submitted to it and to intervene for the settlement of such disputes. It has, of course, no authority to compel obedience to its decisions. The board has recently issued its annual report and the results of its labors as there shown are not encouraging for those who advocate this method of arbitration. It appears that during the year covered by the report there were 425 strikes and lockouts in the state of New York and only in eight cases was arbitration successful. It must be admitted that this is an exceedingly discouraging showing, justifying the comment made upon it by the New York Press that plainly there is no reason for the continuance of the board; that either there never was any necessity for it or else there has been some radical defect in its construction, and it says both conjectures are sound.

The Press urges that there is no need anywhere, though thirteen states have created them, for the kind of boards that exist. It says that the only successful arbitrators of labor disputes have been men of extraordinary weight in their communities—men whose moral worth and mental strength were infinitely above the average and it urges that every state should have headed its commission originally with some man of this character and thus given the theory of arbitration an immediate standing in the community. There is unquestionably force in this. The record of state arbitration boards, with the exception of Massachusetts, is that of almost complete failure to accomplish the purposes for which they were created, and even in Massachusetts the failures, we believe, have largely outnumbered the successes, though better results have been attained there than anywhere else. The great difficulty, of course, is that arbitration cannot be made compulsory. Its efficacy depends upon the willingness of both parties, and while this is so and human nature remains as it is, it is inevitable that the existing methods of arbitration must more often fail than succeed. But the unsatisfactory results of these methods should not be allowed to wholly discourage efforts to devise a better plan, for the importance of the matter cannot be overestimated, from whatever standpoint it may be considered. It is probably the case that a majority of the employees of labor and a majority of intelligent workmen believe in the principle of arbitration and if this is so it cannot be impossible to devise a plan that will beat any rate an improvement upon any yet adopted. But for any method the first consideration must be that the character of the arbitrators shall be such as to command implicit confidence.

What is the use of a four months campaign next summer? The issues are all made up for next year, and the people are well acquainted with them. The situation will not be materially changed by anything that is likely to be done during the approaching session of congress. There are conclusive reasons why the republican party should be restored to power, and it is not to be doubted that a majority of the American people will be guided by them.

Mr. Cleveland's attorney general thinks it "discourteous" to Spain for Americans to express sympathy for Cuba. This is sad, but the discourtesy is increasing nevertheless, and the administration will hardly be able to stop it.

There is to be some missionary work done right here at home this winter. All souls people have opened their pulpit to the pastors of the city and invite each one to set forth the strongest points in favor of his denomination.

"JOLLY OLD CHUMS" TOMORROW

Good Farce Comedy At the Myers Grand Wednesday Evening.

A large audience should fill the Myers Grand tomorrow evening and enjoy the funny antics of the "Jolly Old Chums" and their associates on their coming engagement and have a hearty laugh at the pranks of Budd Rose and Thomas J. Grady and pretty Carrie Lamont, one of the most clever little actresses seen in a long time. Being young, vivacious and pretty, she takes with the audience the moment she appears on the stage. The other members of the company are satisfactory in the different parts.

It seems hardly more than necessary to more than announce the fact that Miller and Grady's new farce comedy, "The Jolly Old Chums" will be seen in this city tomorrow night to insure a crowded house. This attraction has always given such eminent satisfaction that one feels safe in going, knowing full well that they will always keep faith with the public.

"The Jolly Old Chums" is said to be even funnier than the usual run of farce comedies and made more money for its owners than any other farce comedy on the road during its time for two consecutive seasons.

Dancing School.

Mr. and Mrs. C. C. Williams will reopen their dancing classes with a social at Columbia Hall, Friday evening, October 18. The series will consist of ten lessons, every Friday evening. All others, fifty cents. Terms, single scholar, \$4, or \$6 per couple. Masters' and misses' class will meet at 4:30. Terms, single, \$3; two from same family, \$5; Smith's orchestra will furnish music for social; George Dower, pianist. Respectfully yours,
MR. & MRS. C. C. WILLIAMS.

STARVING.

In the Midst of Plenty.

That's what people with poor digestion are doing every day. They have no appetite, or if they do have an appetite and eat what they require it does them no good because the stomach does not digest it and the fermenting mass of food becomes a source of disease, of headaches, sleeplessness, languor and the thousand and one symptoms resulting from disordered digestion. Stuart's Dyspepsia Tablets promptly relieve and cure all forms of indigestion. They have done it in thousands of cases and will do it in yours. The reason is simple. Because they digest the food whether the stomach works or not. That's the whole secret and the only secret about Stuart's Dyspepsia Tablets for we tell you plainly just what they contain because we believe that every man and woman ought to know what they are putting into their stomachs.

Stuart's Dyspepsia Tablets contain the freshest, purest pepsin, free from animal impurities, combined with bismuth and the most valuable vegetable essences and fruit salts, making it not only the surest cure for stomach troubles but a perfectly safe, reliable preparation. Sold everywhere by druggists at 50 Cents per package or sent direct by mail by Stuart Co. Marshall, Mich.

JURY DIDN'T LEARN HOW DRAFAHL DIED

THE CORONER'S INQUEST HELD
OPEN THREE DAYS.

Further Testimony, They Think, Can Be Had by That Time—Story Developed Differed From the Published Reports in Several Instances—The Facts Brought Out.

The exact manner, time and place in which Henry Drafaahl received the injuries that caused his death, was not made clear to the coroner's jury that listened to the evidence of witnesses for two hours in Justice Richardson's court this morning, so an adjournment was taken until Friday morning at 10 o'clock to see if testimony to bridge over the gaps could not be found.

The story developed in court varied considerably from the published reports. Martin Anderson, the farmer for whom Drafaahl worked, was the first witness. He told about sending Drafaahl and another hired man named Fred Wright to town with a load of potatoes; about finding them in a saloon later; and about sending them home, both being intoxicated. He also told about Drafaahl's falling to come to the house, and how he took the lantern and began the search, finding Drafaahl lying in the barn in a pool of blood, and afterward causing him to be taken into the house.

Wright Tells His Story.

Fred Wright was then sworn. He told about taking the team to the blacksmith shop, etc., and said that he and Drafaahl then went into a saloon opposite C. C. McLean's livery stable, where the met two men, apparently friends of Drafaahl, who had a bottle of liquor from which a drink was taken. Then they went into the saloon and had some more drinks, how many the witness could not tell. Then he and Drafaahl got into the wagon and started home. Drafaahl, Wright said, tried to dance in the wagon as they started, and fell out on his head, but climbed back into the wagon unaided. This was about 8 o'clock. When they reached the cotton factory, Drafaahl fell out again, and this time he was helped back into the vehicle. Wright was too much befogged, at the time, to remember much more that occurred, although he recalled meeting some men on the road who spoke to them. They did not stop on the way home that he remembered, and he said that he thought Drafaahl would sleep off the effects of the liquor in the wagon. When he got home he could not un-hitch the team and Anderson did it, after which Wright went to bed.

Dr. McCall's Testimony.

Dr. W. B. Metcalf, whom Anderson called to attend Drafaahl was then sworn. He said he reached Anderson's at 1 o'clock Sunday morning and found Drafaahl lying on a couch, suffering with a dislocated hip, and it being a difficult injury to dress, Dr. Metcalf sent for Dr. Gibson. Blood had settled about Drafaahl's eyes and mouth, and the doctor thought Drafaahl had received a fracture of the inner table of the brain as the symptoms indicated it. The injured man did not regain consciousness, and died at 5 o'clock Sunday morning. Drafaahl's hat was in the wagon, but there was no blood in the vehicle, although there was blood on the barn floor. The blood had come from Drafaahl's nose and mouth. The cause of death, the doctors said, was the injury to the head, which injury was the result of violence, probably the fall from the wagon. The dislocation, he said was similarly caused, although Drafaahl's head, he thought, had been hurt first.

Expect Blood in the Wagon

The doctor further stated that if the injury that caused the bleeding was inflicted by the fall Drafaahl got while leaving the city, he would expect to find blood in the wagon in which Drafaahl rode, although possibly there might not be any owing to the clotting, etc. If he had fallen from the wagon to the barn floor that might have widened the gap of the internal fracture, causing a renewed and increased hemorrhage. It was possible he said to inflict these fractures without internal bleeding. In his opinion, from hearing all the testimony, Drafaahl's death was caused by the injury received by falling from the wagon. He said that Drafaahl might have been unconscious for a while immediately following the injury, and afterward recover consciousness in a greater or lesser degree.

Fred Schuansan was also sworn but could tell nothing new, although he said he had a drink with the boys, and that they did not walk as if they were very drunk.

Dr. Gibson's Testimony.

Dr. James Gibson was then sworn and said Drafaahl was unconscious when he saw him first at 3 a. m. Sunday. The left side of his temple was bruised and scratched and both upper eyelids were swollen full. One arm was also paralyzed. The man was suffering from a disturbance of the brain. An internal fracture, he said, might not show from the outside and nothing could be done for it in that case. Drafaahl's death, he said, was the result of the injury to the brain. The falls Drafaahl was said to have had might have produced the injury. The injured man might have been semi-unconscious immediately after the injury and later become totally unconscious. The pool of blood indicated that he had fallen in the barn. Drafaahl could not have walked on the injured leg, although

he might have been able to crawl. It would have been possible for him to have received the injury in town and still be able to get from the wagon into the barn. If the injury was inflicted in town Drafaahl must have been bleeding on the way home.

Must be Blood in the Wagon.

Drafaahl could not have lain in the wagon half an hour after he was hurt enough to cause the bleeding without there being some blood in the wagon, he said, and therefore the injury that caused the hemorrhage must have been received after Drafaahl reached the farm. He said he could not tell where or when the injury was received that caused the bleeding but it was almost impossible that it could have been received prior to the arrival at the farm.

Thus all the testimony, in the opinion of the jury's stopped at the time the wagon reached the barn, and after they had discussed the matter of a verdict for some minutes, they asked for an adjournment until Friday morning at 10 o'clock in hopes that more witnesses could be found. The jury is composed of J. L. Bear, H. C. Tall, C. H. Kueck, Alfred Alden, David Davies and Fred L. Clemons.

RICHARD O'DONNELL DEAD OF A CANCER

END CAME WITHOUT PAIN OR STRUGGLE.

Well Known Figure Removed by Death—His Quaint Philosophy and Dry Wit Had Caused Many a Smile in Years Gone By—His Record of Public Service.

Richard O'Donnell passed away peacefully this afternoon, aged sixty-seven years. This end came at five minutes after 2, wife and children standing around the bed as the shadow fell.

The dead man was one of the well known characters of the city. He had a fund of amusing philosophy and mother wit and his observations of current events were quoted with relish. He was a prominent figure in local politics and boasted of the time he was "the only republican in the

Richard O'Donnell.

Fifth." For years he was janitor of the Rock County court house and for three months was an officer in the state capital. Since last fall he has been coroner of the county.

County Clare was his birth place and on February 22, 1865, he was married his bride being Miss Maggie O'Dwyer, also of County Clare.

Not long after the marriage the young couple sailed for America. They came directly to Wisconsin and chose a home in Janesville. For thirty years they lived on Center Avenue, but not long ago removed to North Bluff street the present home.

Besides the wife five children survive—Maggie, Arthur John, Richard William, Fred and Kate.

Funeral arrangements have not been made. Mr. O'Donnell was a member and regular attendant of the First M. E. church.

Death is believed to be the result of cancer of the stomach.

Mrs. William Berges.

After patiently enduring an illness that had been gradually strengthening its hold during the past eight years, Mrs. William Berges closed her eyes in the final sleep at noon today and her spirit took its flight beyond this vale of tears. Consumption was the cause of her demise, which occurred at the family home on North Main street. For a long time it has been known that Mrs. Berges could not long hold out, nevertheless, her death came rather suddenly and was a crushing blow to the husband and two little children, a son and a daughter, who survive. Mrs. Berges was born near Watertown, Wis., Jan. 4, 1864, and resided at that city before coming here with her husband. The funeral will be held from the home at 1:30 o'clock Friday afternoon and from St. Paul's church at 2 o'clock.

Funeral Of Mrs. Roethinger.

The funeral of the late, Mrs. Anna B. Roethinger was held at the family home on South Main street, at 2:30 o'clock this afternoon, Rev. W. F. Brown of Beloit, the former pastor of the Presbyterian church officiating. The song service was rendered by a quartette composed of Mrs. C. F. Yates, Mrs. E. M. Hyzer, Dr. O. G. Bennett and William Garbutt and the interment was made at Oak Hill.

WICKES ROW AGAIN IN COURT

The Ex-Mrs. Says the Ex-Mr. Has Been Getting Rents.

The white winged dove of peace refuses to hover over the divided Wickes family and although Mrs. Thomas H. Wickes secured a divorce from her husband last February, the end is not yet. The trouble is now over the alimony. Mrs. Wickes was granted the rental from two houses on Grand boulevard. Now she comes into court and says a real estate agent has been paying rents to her ex-husband instead of herself, and that \$142 has been deducted for repairs and \$42 for agent's commission, all of which should be paid over to her. The suit will be contested.

MANY HUNTERS AT THE LAKE

Ducking Season Proves a Good Thing For The Railroads.

When the Janesville "accommodation train" pulled into the city yesterday from Koshkonong station, an unusually large number of sportsmen were aboard. They were mostly Chicago shooters but many of them came from south of Janesville and were returning home after spending Sunday at the "Cheesapeake Bay of the west." The two crack shots, Ezra and Ed. Bingham of Chicago were both on the train, and were not well pleased with the day's sport, saying that ducks were plentiful but kept far out in the lake.

HOG CHOLERA HELPS THE ROADS

Transportation Companies and Lumbermen Getting What Farmers Lose.

The dreaded hog cholera which is at present raging in Rock county, is causing heavy losses for the farmers, but it has helped swell the receipts of the railroad companies.

"I haven't a doubt," remarked a well known railroad official, "but what within the past week there has been close to four hundred cars of hogs sent through this city from the north and west on their way to Chicago." Janesville has contributed her share, for within the past week sixteen cars all loaded with hogs, some of which are mere "shoats," have been shipped by local speculators.

The cholera has also helped the business of the lumber merchants and business has picked up wonderfully in the past few days, on account of the disease.

"The corn crop has been unusually large this year," said a local lumberman, "and as the cholera has killed a great number of hogs, the corn that would have been fed to them, has to be stored. Consequently new bins and cribs must be built, and there is a good call for lumber in consequence."

RAILROADS EXPECT A RUSH OF TRADE

THEY ARE PREPARING FOR A BIG BUSINESS.

The St. Paul Company Has Already Ordered Ten New Style Compound Engines For the Freight Service, and Will Build Eight Hundred Box Cars at Once.

The railroads running through Janesville are preparing for a rush of business and the Chicago, Milwaukee & St. Paul company has placed orders with the Baldwin Locomotive Works for ten complete new style compound locomotives, to be delivered Jan. 1, 1896. These machines, which will have all the latest features of strength and economy in fuel arrangement, will be used in the freight service.

The cost of a compound engine is said to be about \$7,000, although a few years ago the ordinary locomotive cost as high as \$30,000.

The St. Paul company has also arranged to begin the construction of 800 freight cars, nearly all of which will be built at the shops in West Milwaukee. About ten complete cars a day will be turned out there, and at the present time between fifty and seventy-five cars are being repaired a day at the Milwaukee shops.

'ALL SOULS' The People's Church

Devoted to the B-ment of Our City.

Yes, and what endless possibilities for betterment there are. Where shall we begin? With ourselves first of all. In the empire of our personal lives we hold sovereign control. Each one must purify himself. The city demands and has a right to demand the citizenship of which we are capable. Nothing weakens and corrupts the moral and spiritual forces of this community more than sectarian suspicions and prejudices. Each church is a rival to each other church. We are competing where we ought to co-operate. As a result our energies are exhausted in this inter-denominational contest. And the city is no better but rather worse.

OUT OF DOOR WEAR.

Cloth Hats For Traveling and Knockabout Wear—Winter Capes.

The latest headwear for traveling, golf and cycling is a cloth cap, or rather hat, the brim of which is turned up in front and fastened with two rosettes and a quill. Capes are to be worn all winter and are to be of half length, as the short ones are not sufficient protection from the cold. A cape is a chilly garment at best, however thick it may be, unless one is wrapped in it as if it were an Indian's blanket, which is not a fashionable or becoming way of wearing it. Jackets and coats, both tight and loose fronted, will also be worn, but capes must of necessity remain in vogue until sleeves shrink into moderate limits and dispense with stiffening. All gar-

CLOTH CAPE.

ments for out of door wear are finished with strapping and are often ornamented with stitched cloth motifs of the same order. The newest coat sleeves have a strapped seam down the middle of the outside, and some have more than one seam, the sleeve being composed of tapering pieces running from shoulder to wrist.

Capes are flat on the shoulders, with a sloping effect, but are full in the skirt, if the expression may be used, and are very much rounded to insure full and immense folds. While gown skirts are so full capes must keep up with them, or the upper part of the figure would be subordinated and rendered disproportionate. The good old times when six yards of cloth was an ample pattern for a fashionable street gown might be a century past instead of a few years. The favorite cape is of cloth or velvet and consists of two pelerines, which is a most unbecoming and inartistic style. It has a high collar.

The illustration shows a cape of suede cloth, composed of many breadths, which are cut in one piece with the high collar. The seams are covered with straps of tan velvet, and the edge is similarly finished. Three cloth straps of graduated sizes fasten the cape across the chest and are secured by large buttons of light horn. The garment is lined with changeable silk. With the cape is worn a hat of suede felt adorned with a Louis Quinze bow of twisted velvet fastened by a paste buckle.

JUDIC CHOLLET.

WINTER CAPES.

They Will Be of Fur and Brocade, Silk Lined.

Capes of heavy brocade silk are a feature of the opening season, and plain capes of fur are to be much worn in cold weather by those women who can afford them. Cheap fur garments are not worth buying. A cheap muff or neckband may be worn, because it is useful and necessary, but a cheap fur cape or jacket looks like shoddy and is not presentable where one of cloth at the same price would appear fashionable and in good taste. The fur capes of this season have a yoke of velvet more or less adorned with flat trimming and a Mary Stuart collar of ermine or other fur contrasting with the fur of the cape itself.

Whether capes are of cloth, velvet, silk or fur the lining is of silk, which may match the outside in color or be of a light or bright tone contrasting with it. Much care is expended on the lining and all the details to insure the utmost elegance possible.

For general wear with plain gowns the double cape of mastic cloth, with a high mediet collar and revers of chestnut velvet, is most liked, as these tones harmonize well with all colors and are pleasing and serviceable in themselves. For wear on dress occasions, with a fine gown, a double cape of pearly velvet is liked. This is lined with straw satin, and the collar is embroidered with gold, amethyst and jet, or the collar may be of ostrich tips or of fur. This luxurious little wrap can be worn only over a gown to match, however, which would be eminently fashionable, or one so quiet in color as to offer no opposition to the decided character of the cape, which in that case would form the chief feature of the costume.

WALKING COSTUME.

A sketch is given of a walking costume of beige cloth. The godet skirt is entirely covered with an all over pattern of narrow gray silk and steel braid. The single, round cape of cloth is adorned in the same way and is lined with pale blue surah. A ruche of black ostrich tips surrounds the neck. Under the cape is worn a blouse of black surah. The hat is of black felt trimmed with black plumes and pink roses.

A Conditional Reward.
Woman—My husband has disappeared and may be dead. I want to offer a reward for his body.
Chief of Police—Yes, madam. A description will be needed, and this, with the reward, will no doubt prove effective. He may be alive, you know, in which case we may soon be able to return him to you.
Woman—I shan't pay a cent of reward unless he is returned dead, just remember that.—N. Y. Weekly.

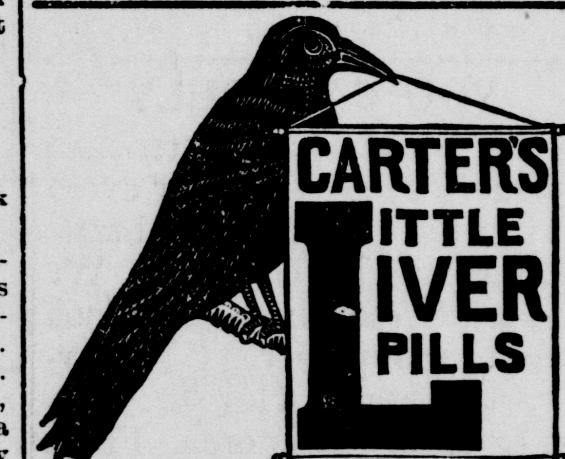

He Had No Objection.
The occasional contributor seated himself comfortably and replied to the busy editor's civil nod with a pleasant "how d'ye do?"

"Would you have any objection," he said, "if I should drop into poetry occasionally?"
"Not the least," the busy man replied, "provided you don't bring me any of it."—Chicago Times-Herald.

Rough on the Children.
Mrs. Bulldozer—Whenever I have a fuss with my husband I send the children out on the street to play.
Visitor—I've no doubt you mean well, but it is a bad idea to have the children out on the streets all day long.—Texas Sittings.

KIDNEYS CURE SICKNESS.

Sick Kidneys the Cause of a Hundred Diseases.

How Kidneys Cause Disease by Not Attending To Their Duties—How They Can Cure Diseases by Purifying the Blood—Our Blood Filters—How To Cleanse Them.

Your lungs supply air to your blood. Your heart pumps it all over your body.

Your kidneys filter it. You would die if any of these three great organs stopped their work.

But if any one is more important than the others it is the kidneys. If your heart is the cause of one disease, your kidneys are the cause of twenty.

Treating the kidneys is a great help in some lung and heart diseases. But treating your lungs or your heart will never benefit your kidneys. When you feel dull, ambitious, dizzy, tired, nervous, have pain in your back, headache, chilly sensations, evil forebodings, puffiness of the eyelids, swelling of the feet and ankles, when you are losing flesh and sleep, you may be sure you have kidney trouble.

As soon as the kidneys fall sick they stop doing their work. They stop filtering the blood.

This is worse than ever. There poison in unfiltered blood. The poison is what causes so-called "blood diseases" such as rheumatism, gout, anaemia, chlorosis, neuralgia, eruptions, etc.

The kidneys cause these diseases. The kidneys can cure them, if they are themselves first cured.

They can be cured with Dr. Hobb's Sparagus Kidney Pills.

The wonderful action of Dr. Hobb's Sparagus Kidney Pills on the kidneys lies in the great curative powers of the Asparagus plant.

You can test its tonic action on your kidneys by eating a dish of it.

But this action is a thousand times strengthened in Dr. Hobb's Sparagus Kidney Pills.

They contain the active ingredient of Asparagus, extracted by a special process. They are strong. They act instantly.

They give immediate relief. They cure in a very short time.

But they are perfectly harmless, purely vegetable, and contain nothing injurious to health.

Kidney troubles are dangerous. Bright's disease is the very worst of them.

Dr. Hobb's Sparagus Kidney Pills will cure Bright's disease.

They will cure all other kidney troubles.

They tone up and strengthen the sick kidneys. They give them fresh life and strength. They give them energy to begin work again as if they had never been sick.

As soon as the kidneys are well, your other diseases will begin to go.

Your pains and aches in your limbs, muscles and joints, your headaches, your pale cheeks, your pimples and eruptions will all disappear.

Not because Dr. Hobb's Sparagus Kidney Pills are really attacking each one of these troubles, but because they have cured your kidneys, and your kidneys are beginning again to purify and filter your blood.

If you will try Dr. Hobb's Sparagus Kidney Pills you will find that they will take effect after a few doses. You will feel at once how much good they are doing you, and you will go on until you are cured.

This is a severe test, but Dr. Hobb's Sparagus Kidney Pills will stand it.

They are for sale at all druggists or mailed prepaid on receipt of price, 50 cents per box.

Write for interesting pamphlet, "A Filter for Your Blood," mailed free on request. Hobb's Medicine Co., Chicago or San Francisco.

ON HIS OFFICIAL DIGNITY.

He Read the Boy a Highly Moral Lecture and Then Warned Him Off.

From the Detroit Free Press. I was waiting for the Post Office at Huntsville to open in the morning and meanwhile talking a bit to the colored janitor, who was sweeping and dusting, when a negro boy, about 15 years old, came along and halted, and beckoned the janitor to step aside. The old man looked at him sharply, but did not comply.

"Say, yo!" called the young man. There was no reply to this, and after a minute he again called:

"Boy, what yo' wants wid me?" sternly demanded the janitor.

"I wants to speak wid yo'."

"Who is yo'?"

"Yo' know who I is. Yo' is dun engaged to my sister Evangeline."

"Oh! yo' is her brudder Sam. Waal, what yo' want?"

"Kin yo' lend me ten cents?"

"On what ground, sah?"

"On de grounds dat yo' is gwine to be my brudder-in-law."

"Boy, doan yo' know nuffin' 'bout philosophy?" shouted the janitor, as he raised his broom over his shoulder.

"My bein' engaged to yo'r sister Evangeline as a private citizen, an' my standin' heah representin' de United States Guv'ment an' talkin' wid a gem'-lan besides, am two entirely different contestashuns. As yo'r fucher brudder-in-law I'd like to oblige yo', but as a representative of dis guv'ment I doan' know yo' from Adam, an' if yo' doan' move on I'll hev to smash yo' to bone dust!"

A NERVY BURGLAR.

He Corrects a Professional Mistake Without Turning a Hair.

From the Chicago Journal. Burglars entered the apartments of Mrs. Kate Calymore in the flat building at Twenty-sixth and State streets last Sunday afternoon while the family were absent. The thieves secured over \$300 worth of jewelry and \$150 worth of clothing. Among the lot of jewelry was a pair of diamond bracelets, one of which the thieves dropped in the hallway in their haste to escape. The bracelet was recovered and returned to Mrs. Calymore. Monday the burglary was reported to the police and a description of the stolen property was taken, and yesterday afternoon a well-dressed young man called at the Calymore apartments and stated that he was an officer from the central station. His next statement was that the police had recovered what they thought was part of her property, among which was a diamond set bracelet. He desired that he be allowed to take the bracelet lost by the thieves in order to compare it with the one recovered. Mrs. Calymore obligingly made the loan, but so far the Police Department has not seen the bracelet. The latter are thoroughly convinced that one of the burglars was the author of a sharp trick to obtain possession of the bracelet they dropped in the hallway and officers of the Twenty-second street station are working on the case, but without result so far.

A Prairie Fire.

Describing a prairie fire in "The World of Adventure," the writer says: "A more picturesque scene could hardly be imagined. The night was very dark; but as far as the eye could reach, all across the horizon, about four miles in front of us, was a broad, bright, lurid glare of fire, with a thick canopy of smoke hanging over it, whose fantastic wreaths, as they curled in the breeze, were tinged with the red reflection of the flames. Even at that distance we could hear the crackling and rushing of the fire, which, as it advanced, caused a strong wind; every now and then a brighter flame would shoot high up into the black cloud of smoke over the top of the hill, illuminating for an instant our tents and wagons in the dark hollow, and giving a momentary glimpse of the horses which were picketed on the side of the rise, on the crest of which the figures of the men engaged in lighting the opposition fire—which, as it became too extended, they beat down with blankets, only suffering it to burn a space about twelve feet broad right across the line of the advancing conflagration—stood out in strong relief against the glowing wall of light beyond them; and as they ran, tossing their arms and waving the blankets and little torches of lighted grass, they looked in the distance like demons rather than men."

Bloodstones.

Almost every jewel has a superstition of some sort attaching to it, and the bloodstone is not wanting in this particular. The story is told of it that at the time of the crucifixion some drops of blood fell on a piece of dark-green jasper that lay at the foot of the cross. The crimson crept through the structure of the stone, and this was the parent of this beautiful jewel. The dark-red spots and veins were supposed to represent the blood of Christ, and many wonderful properties were attributed to the stone. It was thought to preserve its wearer from dangers, to bring good fortune and to heal many diseases.

Simply Following Instructions.

"You say that I'm not altogether objectionable to your parents," he said ruefully.

"No," she replied; "father and mother both speak very highly of you."

"Then why does that big dog assault me every time I come near and chew a piece out of my clothes?"

"Oh, you mustn't mind Brutus. He's trained to do that. Auntie has gotten almost enough samples from him to make a lovely patch-work quilt."

YOUR TIRED STOMACH

"I have no appetite," you say, "and the little I do eat does me no good. At first it feels cold and dead in my stomach and by and by I have aches and pains that sometimes go to my chest and back. I feel weak, low spirited and out of sorts all over. I fancy the demon of dyspepsia has got me." That's the way you talk, and no wonder. But wait a moment. Let us reason together. Perhaps thus far your stomach is merely tired. You have been eating too much, eating the wrong things, and irregularly. You have given it too much to do, and like all living things, when overworked it stops at length from sheer exhaustion. There may not be an actually diseased condition as yet. Still it is nature's warning, and you must heed it or worse will follow. "But I must eat or starve," you say. True enough, but usually lies in middle courses. Here is one for you. You don't need drastic purges or exciting stimulants. Your condition is one easily relieved if we go about it gently and sensibly. The tired stomach won't work under whip and spur. It is as probably had too much of that already. What you require is something that is at once a food and a digester of food. Such an article is the Shaker Digestive Cordial, discovered and prepared by the Shaker Community of Mt. Lebanon, N. Y. Taken right after eating, so as to mix with the food, it does the stomach's work for it, gives it the advantage of further rest, strengthens you in a natural way, and soon enables the stomach to do full duty. There is nothing else like this simple, safe, certain and palatable remedy. Yet the Shakers respect your doubts, and authorize druggists to sell a trial bottle for ten cents.

A man's health is the rope by which he climbs to success. If he can keep his health, he will go on to success. Yet his health is the very thing he neglects more than anything else. It is easier to keep health than it is to regain it. When a man feels himself running down, when he realizes a loss of vitality and energy, he must call a halt. The strands of his rope are parting rapidly. Doctor Pierce's Golden Medical Discovery has helped thousands of men in just this condition. It makes health, it makes pure, rich blood, it forces out impurities and kills germs. It doesn't make any difference what name you call your trouble—dyspepsia—kidney disease—rheumatism—consumption—skin disease, the "Golden Medical Discovery" will cure it absolutely. None of these diseases can retain hold on the body when it is full of rich, pure blood.

The "Bertillion" system of Identification,

Milton T. Middleton,
Manager and Cutter for the "Bolles"
establishment.

is based upon the theory that no two human beings on earth are of precisely the same measurements. The correctness of this theory has been so thoroughly demonstrated that the Bertillion system has been adopted throughout the United States, as the only true means of identification, where other methods have failed. Taking this as an **UNDISPUTED FACT** how can well fitting clothing be made, when cut by a system, which is simply a compilation of proportions, a veritable hit or miss? This matter has been most thoroughly tested in my mind and I have convinced hundreds of intelligent thinking people, that to fit a man's body an actual measure, a balance, a scientific diagram of the body is necessary.

The merits of my perfection balance system cannot be disputed. "Aye," it is "not"

Cutting is an art,

a study, but like all others, one artist cannot please all mankind.

I'd like to TALK CUTTING WITH YOU.

M. T. MIDDLETON, Cutter.

SELF PRAISE IS NOT CONVINCING!

THE ARGUMENTS ON CLOTHING ARE

WORKMANSHIP, QUALITY AND PRICE!

and are worth considering before you buy. We are showing this fall the right kind and at right prices, so says every looker that sees our immense line of

Overcoats & Suits

MADE OF ALL THE LATEST FABRICS.

We have sold many Overcoats during this cold snap to people that only came to look, but were convinced that our line was complete and at fair living prices. Remember we don't roast you if you don't buy.

A NICE LONG ULSTER

like this one
is the proper
thing now only

\$10

We Have
a black and blue

Kersey Coat!

cut 48 inches long, heavy
farmer satin lined, silk vel-
vet collar and the prettiest
and best wearer you ever
saw. It's yours for

THE BIG CLOTHING STORE

T. J. ZEIGLER, CORNER MAIN AND MILWAUKEE STREETS, JANESVILLE, WIS.

We Will Not Be Undersold!

Never have been, never will be; we are in the papers always, but NEVER in our store—NEVER. We don't advertise \$15 and \$18 suits for \$7.50. No, NEVER. Some do, and what do you get? Not \$15 and \$18 suits, but suits that we sell anytime, all the time for \$6 and \$6.50. If the thing keeps up, before the winter is gone they will advertise \$20 suits for \$3.79. Watch and see if they don't. They must take the public for fools. When you go into one of these stores and ask for the goods they advertise they are just out or else the goods are not worth any more. You can't believe a word in their advertisements. There is not a Clothing House in the county that is better equipped to fill the wants of the rich and poor alike than ZIEGLER'S. Janesville people, the farmers in all the country surrounding us and the people of every town in the county know this by actual experience.

MEN'S WINTER SUITS.

AT \$8.00 In plain black Thibet cloth and fancy Cheviots. Are wonderful good fitters and actually worth \$10.

AT \$9.00 A fancy stripe in a Brown Cheviot or a Jet Black Cheviot or a Fancy Worsted. Back of vest and coat lining an excellent quality of Italian lining in either suit beautifully made and one of our very best sellers.

AT \$10 A Hair line, Barabas Cassimere Old Man's Frock or a Double Breast both Coat and Vest. Fancy Cheviot or a Black Unfinished Worsted Single Breast Sack or a Black Clay Worsted weave in either case actually worth \$12.

AT \$12

None safer to buy than these. The new Brown shades in Cheviots, the Black and Blue Cheviots and Thibet cloths, the heavy Black Clay weave Worsteds in both Sacks and Cntaways madewith our single stitch edge with deep facing neatly piped and stitched throughout with silk thread. These we know no tailor could produce and give as much style as these for less than \$25. Call for them.

IN OVERCOATS

We believe we can safely say that ours is the largest stock in the city.

AT \$6.00

AT \$8.00

Blue and Black Rough Beaver. } Are the best you ever saw at these prices.
Black Smooth Beaver. }

AT \$10

Blue and Black Kerseys cut fashionable lengths; heavy Linings. Our Black Beavers and Cheviots we don't think can be duplicated for less than \$18 elsewhere.

We say this because these coats bear Henry W. King & Co.'s hanger and are made in Henry W. King & Co.'s own factory. Our Mr. Zeigler being connected with these large manufacturers of Clothing we have facilities for buying that no other Clothing concern in Rock County has. Hence we can make you lower prices than any competitors.

OUR \$10, \$12 AND \$15 FRIEZE ULSTERS!

we ask you to see for there are no better made. Remember we are no "Hokus Pokus" advertisers. It is a plain proposition that we can't afford to name through these columns anything which is not just as we say. We want more business. We want your trade reader. We want you to come to our store before you make your Fall purchases. We will guarantee you polite treatment and will not order you out if you don't buy. We want you to see our lines of **Duck and Leather Coats**. We have a Black Duck Coat lined with the hide and long wool of the Sheep which you may buy if you see it. It is certainly the warmest coat made. We are selling the best wearing hose made on the earth for 15c pair or two pairs for 25c. Call for the genuine Middlesex.
